

MODEL 75XP

7" Capacity Hand-Fed Chipper

The Bandit® Model 75XP is an outstanding chipper for both tree services performing medium-duty trimming and rental stores looking for a **high-production, low-maintenance rental unit**. A wide throat opening and powerful horizontal feed wheels help this overachieving chipper pull, compress, and process stubborn branches and small trees without difficulty. And the **durable construction** means this chipper will withstand the daily stress of chipping for years to come, meeting the strong demands of professional tree care workers.

75XP

COMPACT & POWERFUL

The Model 75XP is easy to tow and maneuver, so even light trucks can easily pull this chipper to jobs. When it's on the job, the 75XP can quickly and easily process a steady diet of trees, brush and prunings up to 7" in diameter, reducing material to dimensional chips to be cast over the jobsite or into a truck.

POWERFUL FEED SYSTEM

The large throat opening and powerful feed wheel system crushes and compresses limby materials. A 24 cubic-inch displacement hydraulic motor has the power to pull long material into the chipper, reducing the cost of chipping by reducing the amount of sawing and trimming. A sloped infeed tray ensures less fatigue for the operator and allows material to flow both rapidly and smoothly into the chipper.

MAXIMIZE YOUR UPTIME

The most common maintenance items are easy to access on Bandit chippers, so daily maintenance is quick and simple. Bolt-in knives are easy to change through the chipper hood, and all service areas are conveniently located, including all grease points.

THE PERFECT GEOMETRY

The Model 75XP uses a chipping disc placed at a 90-degree angle to the infeed opening, making it much more effective at chipping small diameter brush, limbs with high leaf content, and viney material than other chippers in this class. The compact nature of the machine is appealing to a wide array of audiences, including rental markets.

GO MOBILE

Instead of wheels, the Model 75XP is also available with a rugged track undercarriage for taking the chipper to the material.

DIMENSIONS

Capacity:	7"	17.8 cm
Opening:	7" high x 12" wide	17.8 cm x 30.5 cm wide
Disc:	26" dia. x .75" wide	66 cm dia. x 1.9 cm wide

RPM: Approximately 1,950 RPM

Hitch: 2" ball hitch (5.08 cm) with options

Feed System: Hinged yoke assembly with a single, pivoting 10-5/8" diameter x 11-1/2" wide feed wheel with an option for dual horizontal feed wheels

Discharge: 360° manual swivel discharge with 12" (30.5 cm) adjustable chip deflector

Frame: Mainframe is constructed of 3/16" x 2" x 4" rectangular tubing (0.48 x 5.1 x 10.16 cm)

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

75XP TRACK

MODEL 75XP FEATURES

- **Last Chance Cables (standard)**
Stops/reverses the feed wheel when pulled in case of an emergency
- **Operator Safety Control Bar (standard)**
Wraps around 3 sides of the infeed chute & controls the direction of feed wheels
- **Wood Pusher Paddle (standard)**
Used to feed small wood debris into the chipper
- **Chipper Hood Pin w/Padlock (standard)**
Prevents unauthorized access to the disc or drum
- **Chipper Hood Engine Disable Plug (standard)**
Prevents engine from being started without the hood pin in place
- **Hydraulic Bottom Bump Bar (option)**
Stops feed wheels via mechanical connection when bumped, diverting hydraulic power away from the feed wheels
